Cracking Your Genetic Code :

Online Library Cracking Your Genetic Code Movie

NOVA-Hastings Film Explores Issues That Arise From Genomic Science. On Wednesday, March 28th (9 p.m./8c), PBS will broadcast an important film that explores some of the crucial ethical issues that are emerging from the life sciences: how to use our knowledge of personal genetic information; and who should have access to this information about our individual and familial genetic data?

explores the promise and the challenges of the new age of personal genomics, from genetic surveys offered by direct-to-consumer companies like 23andMe to full genome sequencing. The documentary asks us to image how the world will be different once whole genome sequencing is available at \$1000 or less and becomes routine.
