### **Bakery - DuPont**

Gain a finer degree of control over the bakery process and make your baked goods fresher, softer, more consistent and longer-lasting (even when dealing with challenging flour quality). DuPont\u2122 Danisco\u2122 baking enzymes help keep baked goods fresher for longer, thus reducing food waste. Plus, our baking enzymes can help improve flour performance and dough stability throughout the process, leading to less product discarded.

To help our customers replacing ingredients with knowledge, DuPont recently launched the “Clean(er) Label Journey” tool for baked goods. This tool maps the journey from “traditional label” to “clean label” and is a guide to explain which impact the ingredients have on key features like for example volume, process robustness, or crumb quality.

DuPont cares about your privacy. Your personal information (name, email, phone number and other contact data) will be stored in chosen customer systems primarily hosted in the United States. This information will be used by DuPont, its affiliates, partners, and selected third parties in other countries to provide you with the product or service ...

## **Long live the icing in the cake - DuPont Nutrition ...**

Generally speaking, fiber addition to bakery products is no longer a problem. Whole grain solutions that counter the tendency towards dryness and toughness are easy to come by. The focus of our recent development work has been how to raise the fiber content of pizza base without altering the taste or appearance.

The work to develop a liquid alternative to block cake margarine is primarily about reducing the content of unhealthy saturated fats. But, as we mention in the film, liquid cake margarine brings a series of opportunities to optimize cake processing – not least by serving as a carrier of softness solutions.

DuPont baking enzymes reduce food waste by helping to keep baked goods fresh for longer. They help ensure a reliable and robust baking process, which means that less product is discarded for being out of specification. All this conserves resources and reduces environmental emissions from decomposing food waste.
