You can find a Starbucks coffeehouse almost anywhere, from Paris, France to Paducah, Kentucky, from the crowded streets of Thailand to shopping malls in Qatar. With nearly 200 of them in New York City alone, this coffee retail giant with humble beginnings has become an actor and icon in the global economy. As we sip our cappuccinos, frappuccinos, and our double half-caf venti low-fat mochaccinos, many of us wonder if Starbucks is a haven of civilization or a cultural predator, a good or bad employer, a fair trader or a global menace. In this entertaining and provocative ramble through Starbucks's ethos and actions, Kim Fellner asks how a coffeehouse chain with a liberal reputation came to symbolize, for some, the ills of globalization. Armed with an open mind and a sense of humor, Fellner takes readers on an expedition into the muscle and soul of the coffee company. She finds a corporation filled with contradictions: between employee-friendly processes and anti-union practices; between an internationalist vision and a longing for global dominance; between community individuality and cultural hegemony. On a daily basis Starbucks walks a fine line. It must be profitable enough to please Wall Street and principled enough to please social justice advocates. Although observers might argue that the company has done well at achieving a balance, Starbucks's leaders run the risk of satisfying neither constituency and must constantly justify themselves to both. Through the voices of Central American coffee farmers, officers at corporate headquarters, independent café owners, unionists, baristas, traders, global justice activists, and consumers, Fellner explores the forces that affect Starbucks's worth and worthiness. Along the way, she subjects her own unabashedly progressive perspective to scrutiny and emerges with a compelling and unexpected look at Starbucks, the global economy, our economic convictions, and the values behind our morning cup of joe.

Now in paperback, the national bestselling riches-to-rags true story of an advertising executive who had it all, then lost it all—and was finally redeemed by his new job, and his twenty-eight-year-old boss, at Starbucks. In his fifties, Michael Gates Gill had it all: a mansion in the suburbs, a wife and loving children, a six-figure salary, and an Ivy League education. But in a few short years, he lost his job, got divorced, and was diagnosed with a brain tumor. With no money or health insurance, he was forced to get a job at Starbucks. Having gone from power lunches to scrubbing toilets, from being served to serving, Michael was a true fish out of water. But fate brings an unexpected teacher into his life who opens his eyes to what living well really looks like. The two seem to have nothing in common: She is a young African American, the daughter of a drug addict; he is used to being the boss but reports to her now. For the first time in his life he experiences being a member of a minority trying hard to survive in a challenging new job. He learns the value of hard work and humility, as well as what it truly means to respect another person. Behind the scenes at one of America's most intriguing businesses, an inspiring friendship is born, a

family begins to heal, and, thanks to his unlikely mentor, Michael Gill at last experiences a sense of self-worth and happiness he has never known before. Watch a QuickTime trailer for this book.

Discover the formula used by twenty-one of the world's most extraordinary leaders to make consistent and smart decisions. How do the wise decide and lead businesses and organizations to great success is the question Bryn Zeckhauser and Aaron Sandoski posed to themselves after landing their first jobs as managers. Despite the best training the world could offer—Harvard MBAs and stints at McKinsey & Company, the elite powerhouse consulting firm—they felt unprepared when faced with the pressure to make critical decisions. So they set out on a three-year quest to discover how people with remarkable success and experience in both corporate and public life—the wise—went about making crucial, often make-or-break decisions. • How did William George, when CEO of Medtronic, get the real story about why a critical tool used by cardiologists was failing and use that information to fix a systemic problem within the company? • When inventor Dean Kamen has to make a decision about investing in a new technology, why does he find it useful to “fill a room with barbarians” to get the best thinking from his team? • How did Shelly Lazarus assess the risks of making a nontraditional career move, a decision that eventually led her to being appointed CEO? • How did Stephen Schwarzman and Peter Peterson, the founders of The Blackstone Group, turn \$400,000 of their own money into one of the world's preeminent alternative asset managers with \$100 billion under management? These and the other accounts of the direct conversations Zeckhauser and Sandoski had with twenty-one major leaders show that between wise decisions and poor ones lie vast fortunes and extraordinary contrasts in success. How the Wise Decide distills their wisdom, and it reveals how you can use this wisdom to be on the winning side of the ledger.

The consequences of a primary focus on shareholders over the last few decades has emphasized that that a new model of value creation is necessary. Today's economy demands organizations that create value, not only for shareholders but also for customers, employees, leaders and society. Businesses that face up to this challenge by focusing on all the stakeholders involved will be far more successful in the long term than those driven purely by seeking to deliver the maximum return on shareholder investment. Creating Lasting Value shows readers how to achieve lasting results by channeling efforts into three key areas. It demonstrates how to lead the value, manage the value, and market the value. The successful organizations of the future will be those that can put these principles into practice: this book shows you how.
